

# QUICK-CRATE®

*The tightest box in the business*

## Automotive Industry

**Machine Housing Crate**

Quick-Crate's collapsible, custom engineered shipping system is designed to protect, transport and store products no matter where you are in the automotive supply chain. Custom built to your specifications, Quick-Crate's internal dunnage can be modified to follow parts through multiple phases of the production process. And removable panels mean parts can be accessed or inspected from the top or any side of the crate.

**Crate with Spindles**

**Cutter Secured by Dunnage**

**Tractor Roof Crate**
