Interior dimensions

94"(L)x45"(W)x46"(H)

One-Way Quick-Crates offer a cost effective alternative when return cycling is not feasible. We have designed our pricing to be highly competitive with thin-walled plywood shipping crates and traditional cleated crates. We have produced over 10,000 crates for such industries as automotive, aerospace, military, robotics, agricultural and many other unique applications.

Crate Specifications:

- ISPM-15 export compliant
- Collapses to just 9" tall
- Materials:
 - Base panel -- 3/4" exterior grade plywood (9 ply)
 - Side, end and top panels -- 3/4" OSB (Oriented Strand Board)
- Exterior crate dimensions (including pallet) – 95.5"(L)x46.5"(W)x51"(H)
- Interior volume – 112.6³ft
- Tare (empty) weight – 380 lbs / 172.4 kg
- 32 zinc plated spring-steel clips (.060" material thickness)
- 4-way pallet entry
- Max load of products – Dependant on weight distribution across base panel
- Part# OWC-8

[See the training video in the Video Gallery on our website!](#)

*All clips must be fully seated in place for a Quick-Crate to function as designed
