

QUICK-CRATE®

The tightest box in the business

Military Applications

Army Transport Box

Whether it's ammunition or aircraft components, the Quick-Crate system protects sensitive equipment while meeting supply chain needs and ISPM-15 export regulations. The system has been lab and field tested to the highest standards and is Mil-Std-1660 certified (transportation of live ammunition) by the Army's Defense Ammunition Center. Quick-Crates can stand up to 10,000 psf of pressure and up to 4,000 lbs of load.
